The Evaran Chronicles Box Set: Books 4 -6 Adair Hart 2018-09-23 Not everything is what it appears to be. Dr. Albert Snowden and his niece, Emily, continue their space-and-time-traveling adventures with Evaran and V. From the far reaches of Roeth, to a parallel universe, and then back to Earth, Evaran and crew try to maintain timeline integrity while dealing with the challenges that brings. This box set contains the fourth, fifth, and sixth books in the Evaran Chronicles. If you like science fiction, time travel, technology, and adventure with a space-opera bent, then this series is for you. The Time Refugee—Book 4 of the Evaran Chronicles In the year 3104, United Planets Agent Jane Trellis finds new hope in cracking the illegal augment trade when time travelers Dr. Albert Snowden; his niece, Emily; V; and Evaran arrive at Roeth, a planet 740 light-years away from Earth. With Jane's new allies, she can finally check out the Dyson bubble that is under quarantine. On a personal note, she hopes to discover more about how her husband died while working there. Experiencing timeline changes, meeting multiple timeline versions of people, rooting out a timeline anomaly, and facing off against a timeline threat were not things Jane had envisioned herself ever doing, yet she finds herself in the middle of all those issues. Becoming a time refugee was definitely not on her list of things to do. The Evaran Origin—Book 5 of the Evaran Chronicles Thoughts can take on physical form. Dr. Albert Snowden and his niece, Emily, never thought they would be able to travel through space and time. Or out of the timeline. Or out of the universe. Or even out of the plane that houses universes. Yet that is where they find themselves while exploring the origin of Evaran, the mysterious being who rescued them from an alien abduction six months ago. Having to deal with the fact that they are part of a time loop that has not yet been fulfilled is one issue. Learning of another version of Evaran who needs their help in a parallel universe is an additional problem. Hampering their efforts along the way are the Time Wardens, a hideously intelligent race from the timeline void, who relentlessly hunt any time traveler. Evaran and crew, along with new allies, will try to help the other Evaran while dealing with the Time Wardens and other threats. If you like science fiction, time travel, and action and adventure, then this book is for you. The Shadow Connection—Book 6 of the Evaran Chronicles Dr. Albert Snowden and his niece, Emily, are back on Earth after six months of traveling through space, time, and beyond with Evaran, the mysterious stranger who rescued them from an alien abduction. They were expecting to get some peace and quiet after the hectic nature of some of their previous adventures. However, things get complicated when Evaran's ship, the Torvatta, is stolen. To make matters worse, Dr. Snowden has to deal with the near-death experience from a recent event. He and Emily must also adjust to the new side effects of their nanobots, which were enhanced prior to going back to Earth. As they look for the Torvatta, they must also deal with a rogue faction of the Helians, the group that represents Earth from a galactic perspective. Evaran will call upon old and new friends within the nonhuman world to deal with the defected Helian sect. What they find drags Evaran and his new allies deeper into a global event that has timeline implications.

CONSTELIS VOSS vol.1 — COLOUR THEORY K. Leigh 2021-04-27 The series opens on a dystopic planet-sized ship in the far future, where a very advanced android receives a personality file from the 90s. He is the only one of his kind. His name is Alex, and in his quest for understanding just how he got to be an android-and on the planet-sized ship known as CONSTELIS VOSS-he finds curiously familiar faces who help him color in the blanks. As the coincidences pile up-friends, objects, scenes, motifs, and tropes-they start to form a pattern. A pattern that's set against the backdrop of a dystopian, corrupt civilization, with a conveniently very-evil villain. A pattern that seems, in all its madness, to be directly linked to him. Something is pulling the strings, and figuring out the mystery is the only way to save himself, his friends, and the future of the very human race itself. But will he be able solve the mystery without losing himself-and his friends-in the process? The road to hell is paved with good intentions, after all. Welcome to Constelis Voss, the anime-inspired, psychological sci-fi trilogy nobody asked for, but everyone (probably) deserves.

Enlightenment Jamil Voss 2021-10-02 Enlightenment: A Modern Understanding brings clarity and modernity into the world of enlightenment. Without disrespect for the ancient teachings, this book, affectionately called EAMU, brings an entirely refreshing and inspiring understanding of spiritual enlightenment that goes well beyond the ancient teachings – into the foundation of a whole new genre and science of thought. As we moved through history, the questions and quests which predicate our satisfaction or dissatisfaction have evolved, and it's been many years since the understanding of enlightenment has been revised into modern context. This book does so brilliantly, kindly, and with inspiration and a feeling of poetry – all the while being of a scientific mindset, but oriented more toward practical applicability than scientific review. This book goes into theory and observation in a way that is understandable, and because of its comprehensibility, paves the way forward for a new discussion with a new understanding of this very ancient but not currently, concisely, and truly answered topic that we call, “enlightenment.” EAMU explains enlightenment in a way that is aspiring, modern, natural, and intellectually catchy. The second edition brings added clarity and adds more material.

Babylon Berlin Volker Kutscher 2017-09-12 THE BASIS FOR THE INTERNATIONAL TV SENSATION BABYLON BERLIN "Cabaret on cocaine...captures the dark glamour of a briefly exhilarating time between the wars." --NPR Babylon Berlin is the first book in the international-bestselling series from Volker Kutscher that centers on Detective Gereon Rath caught up in a web of drugs, sex, political intrigue, and murder in Berlin as Germany teeters on the edge of Nazism. It's 1929 and Berlin is the vibrating metropolis of post-war Germany—full of bars and brothels and dissatisfied workers at the point of revolt. Gereon Rath is new in town and new to the police department. When a dead man without an identity, bearing traces of atrocious torture, is discovered, Rath sees a chance to find his way back into the homicide division. He discovers a connection with a circle of oppositional exiled Russians who try to purchase arms with smuggled gold in order to prepare a coup d'état. But there are other people trying to get hold of the gold and the guns, too. Rath finds himself up against paramilitaries and organized criminals. He falls in love with Charlotte, a typist in the homicide squad, and misuses her insider's knowledge for his personal investigations. And as he gets further entangled with the case, he never imagined becoming a suspect himself. “The first in a series that's been wildly popular in Germany is an excellent police procedural that cleverly captures the dark and dangerous period of the Weimer Republic before it slides into the ultimate evil of Nazism.”—Kirkus Reviews “Conjures up the dangerous decadence of the Weimar years, with blood on the Berlin streets and the Nazis lurking menacingly in the wings.”—The Sunday Times (London) “James Ellroy fans will welcome Kutscher's first novel and series launch, a fast-paced blend of murder and corruption sent in 1929 Berlin.”—Publishers Weekly (starred review)

Sport, Film and National Culture Seán Crosson 2020-08-31 Sport and film have historically been key components of national cultures and societies. This is the first collection dedicated to examining the intersection of these popular cultural forces within specific national contexts. Covering films of all types, from Hollywood blockbusters to regional documentaries and newsreels, the book considers how filmic depictions of sport have configured and informed distinctive national cultures, societies and identities. Featuring case studies from 11 national contexts across 6 continents – including North and South America, Europe, Africa, Asia and Oceania – it reveals the common and contrasting approaches that have emerged within sport cinema in differing national contexts. This is fascinating and important reading for all students and researchers working in film, media, cultural studies or sport, and for broader enthusiasts of both sport and film.
