Textile-led Design for the Active Ageing Population Jane McCann 2014-08-19 Despite the world's aging population, suitable clothing for the older community is a largely neglected area. This book considers the needs of the growing number of active older people and investigates how recent developments in textiles, fibres, finishes, design and integrated technology can be deployed to serve this group and improve quality of life. Part I provides an understanding of the active aging population by considering the group's experiences of and attitudes towards clothing and reviewing the barriers to their adoption of new wearable technologies. Part II focuses on the needs of the older population, including effective communication with designers and the age-related anatomical and physiological changes that designs should consider. Part III reviews design requirements and processes, and finally Part IV reviews the manufacture of suitable apparel, with chapters on suitable textile fibres, balancing technology and aesthetics and wearable electronics. Summarises the wealth of recent research on

attitudes to clothing amongst the active ageing population Looks into how their aspirations can be investigated and appropriate apparel designed to meet their needs Examines design and manufacturing issues, including ways of accommodating physiological changes with age and the use of wearable electronics

The Business of Influence Philip Sheldrake 2011-05-04 Media has most definitely evolved, as have the ways in which we contemplate, design, communicate and execute

strategy. And rather than technological evolution, we're plainly in the midst of a technological revolution. We have no choice then but to reframe marketing and PR in the context of 21st Century technology, 21st Century media and disintermediation, and 21st Century articulation of and appreciation for business strategy. "Today, every organization is in the influence business. We influence customers to buy from us, employees to work for us, and the media to write about us. Gone are the days when you could be your own island. Now, to be successful, you need to live within the influence ecosystem and that requires a change of mindset. Fortunately, Philip Sheldrake will show you how." David Meerman Scott, bestselling author of The New Rules of Marketing & PR and the new hit Real-Time Marketing & PR

Land management can be understood as a process that comprises coordination of such activities while managing the use and the development of land resources. It can be counstrained by the land use specifications resulting from spatial planning process. Along with this, the legal framework often contains generally formulated concepts and open standards, which provide a range of opportunities for realization while balancing the different interests. In this process it is important if and how both constraints and opportunities are recognised by the actors. In this volume

this topic is examined from various aspects: first the problems in promoting mutual understanding between researchers and the general public, but also among scientists of different disciplines; second the success requirements of land management instruments as well as unfortunate experience caused by land use changes; third covering land management costs by absorbing value increase and other trade off aspects; and fourth supporting land management by providing geodata with low-cost methods.

Advances in Home Care Technologies K.J. Turner 2012-10-10 An ageing population is burdening social and healthcare services around the world, and this problem is likely to get worse as the percentage of older people continues to rise. Many governments are already responding to this challenge, and a key element in their strategies is the development and deployment of computer-based telecare and telehealth technologies to support care at home in a cost-effective manner. Human

involvement in care continues to be central, but home care technologies can offer reassurance, and support routine aspects, to the benefit of all concerned. This book provides an up-to-date overview of key advances in the relevant technology, with an in-depth examination of the latest research in various home care technologies by experts in the field. The book mainly discusses the results of the Mobilising Advanced Technologies for Care at Home (MATCH) project, co-ordinated by the University of Stirling in Scotland, but work on related projects is also included. The book will be of interest to all researchers and practitioners in the fields of telecare and telehealth, policymakers in these areas, and providers of social and healthcare with an interest in technology.

Het Utopia experiment Robert Ludlum 2013-10-03 Robert

Ludlum & Kyle Mills, Het Utopia experiment Een revolutie op het gebied van oorlogvoering, maar is het wel veilig? Dresner Industries presenteert een revolutionair nieuw product: de Merge. Een technologische uitbreiding van de menselijke waarneming die direct gekoppeld is aan de hersenen. Kolonel Jon Smith wordt gevraagd het militaire potentieel te bepalen van het apparaat en de bijbehorende implantaten. Hij ontdekt dat de Merge een nieuwe manier van oorlog voeren mogelijk maakt. Een uitvinding die niet in handen van Amerikas vijanden mag komen. Maar is de Merge wel zon zegen voor de mensheid als Dresner beweert? En wat is het verband met een bizarre slachting in Afghanistan? Het is duidelijk dat Dresner iets verbergt, maar wat? Jon Smith en Randi Russell zijn vastbesloten om met gevaar voor eigen leven de waarheid te achterhalen die hun tegenstanders tot elke prijs geheim willen houden. Robert Ludlum brak op zijn veertigste door met De Scarlatti Erfenis en heeft inmiddels meer dan vijfentwintig wereldwijde bestsellers op zijn naam staan. Zijn serie rondom Jason Bourne is succesvol verfilmd met Matt Damon in de hoofdrol.
